List of Acceptable Alternative Standards to BS 25999-2:2007 Part 2

IRCA has determined that, for the purposes of conformance with the IRCA/1012 Business Continuity Management Systems auditor certification criteria, the submitted standards detailed in this document are considered acceptable alternatives to the BS 25999-2:2007 Part 2 Specification.

IRCA's evaluation of these standards includes a technical review for the purposes of validation of acceptability of an applicant's claim of experience "equivalent" to auditing Quality Management Systems to BS 25999-2:2007 Part 2. This evaluation is used only to determine whether audit experience using these standards meets the audit experience requirements stipulated in the IRCA auditor certification criteria. It is not intended as a technical review of the equivalence of a standard BS 25999-2:2007 Part 2.

IRCA will review submitted standards, update and reissue this list periodically.
