

IT Questionnaire

*You should answer this short questionnaire if you are applying to be certified to the **TickIT 2000 Provisional Auditor, TickIT 2000 Auditor, TickIT 2000 Lead Auditor** or **TickIT 2000 Principal Auditor** grades. Your answers should be provided on not more than 2 sides of A4 paper using a 10 pt Font. Please write your name and the date on each sheet. Your responses need not be verified by your sponsors but they may be followed up by our Reviewing Officer.*

1 IT Experiences

- 1.1 Describe an IT activity in which you have participated that best demonstrates the required experiences listed in IRCA/162, Section 2, IT Competence. Provide details of the dates, project duration, your level of responsibility and what you as an individual did.
- 1.2 Describe the specific QMS approaches used and your views about them.
- 1.3 In your view and from your experience, what can go wrong, technically and managerially, in that kind of development?
- 1.4 What are the two most important things you would do differently if you were doing the work today?

2 Currency of Knowledge

- 2.1 When did you last work in software development? What have you done to keep your software engineering skills and knowledge of software quality standards up to date since then?
- 2.2 What do you consider to be the major contemporary issues in software development quality management?

3 TickIT

- 3.1 What information sources, standards and guidelines do you regularly peruse? What is your experience in using the TickIT Guide or its companion publication "Getting the Measure of TickIT"?
