

Lista de normas aceptables como alternativas a la ISO 9001:2000

El IRCA ha determinado que, con el propósito de cumplir con los criterios de certificación de auditor de sistemas de gestión de la calidad IRCA/602, las normas listadas en este documento son consideradas como alternativas posibles a la ISO 9001:2000.

La evaluación de estas normas realizadas por el IRCA consistió en un análisis técnico con el fin de validar la aceptabilidad de un pedido de un postulante de experiencia equivalente a auditorías según la norma ISO 9001:2000. Esta evaluación es utilizada solamente para determinar si la experiencia de auditorías según estas normas cumple con los requisitos de experiencia de auditorías estipulados en los criterios IRCA de certificación de auditores. No debe ser entendida como un análisis técnico de la equivalencia de las normas con la ISO 9001:2000.

El IRCA actualizará y emitirá nuevamente este listado.
